

### OFFER INQUIRY no PBS/IIVbF-03/II/2018

As part of the implementation by Lfc Sp. z o.o. Applied Research Programme please provide us with your current offer for:

**Table 1**

No	Subject of inquiry	Quantity
1.	<b>Silicone type Dragon Skin or equivalent</b> - Additive cure silicone, soft, tough and highly flexible, transparent material that allows coloring with pigments	min. 2,5 kg
2.	<b>Silicone thickener type Thivex II or equivalent</b> -for condensing and additive silicone	min. 450 g
3.	<b>Silicone addons type Slacker or equivalent</b> - one-component, transparent, making the material feel more "meaty" for human skin imitations	min. 900 g
4.	<b>Set of pigments type Silic-Pig or equivalent</b> - for additive silicones, 9 colours (black, white, red, yellow, green, blue, flesh tone, brown, bloody)	1 set
5.	<b>Separator for casting type Ease Release or equivalent</b> - separator in fluid for separation of polyurethanes, epoxy resins, polyester resins, RTV-silicones, rubbers and thermoplastics. It can be used in aluminium, chromium, resin, rubber or steel forms.	min. 500 g
6.	<b>Model mass type Super Sculpey or equivalent</b> - mass with excellent shape reproductibility. It does not collapse after processing, although staying soft. Suitable for painting with acrylic paints. Achieves hardness of ceramic products in room temperature	min. 450 g
7.	<b>Transparent silicone rubber type Rubber Glass/Encapso or equivalent</b> - transparent silicone rubber, which can be crushed after curing. Suitable for coloring. Material for simulating effect of ice, diamonds, glass shards or cartilage	min. 1 kg
8.	<b>Epoxy casting resin type Crystalline 940 or equivalent</b> - epoxy casting resin, crystal clear with increased resistance to UV radiation	min. 1,5 kg
9.	<b>Silicone type Silicone or equivalent</b> - condensing silicon with a hardness of 15 Shore A with low viscosity and fast curing time. It does not require de-aeration and is suitable for casting wax, gypsum and metals with a low melting point, polyurethanes and epoxy, polyester resins	min. 2 kg
10.	<b>Two-component foam type Foam IT or equivalent</b> - A hard two-component foam that forms a mixture by volume in 1A:1B proportions. It can be an independent casting or filling element	min. 800 g

Program Badań Stosowanych

Narodowe Centrum  
Badań i Rozwoju

Notes:

- a) time limit for submitting tenders: 30.04.2018
- b) submitting partial offers is not allowed;
- c) **The subject of the inquiry must include all additional costs, including delivery to the registered office of the Ordering Party's headquarters;**
- d) Minimum validity of the offer: 1 month;
- e) The Ordering Party:  
Lfc Sp. z o.o.,  
929-011-26-10  
ul. Kożuchowska 41,  
65-364 Zielona Góra,
- f) Delivery terms DDP (Incoterms 2010):  
Lfc Sp. z o.o.,  
ul. Kożuchowska 41  
65-364 Zielona Góra
- g) The tender selection criteria
  - conformance with the inquiry specification - pass criterion,
  - lowest price - 100%

For assessing the bid in terms of price criterion will be applied formula:

$$K1 = Cn / Cb * 100$$

description:

Cn – the lowest price in tender;

Cb - offered price

- h) We declare that there is no lack of capital and personal connections;
- i) The purchase is cofounded by **Applied Research Programme**

**Project Office:**
